- Participant Interaction
- HCEI 2.0
 - Organization
 - Charrettes
- Q&A through LiveSift or Microphone

LiveSift

To submit questions to the Panel

Go to LiveSift.com

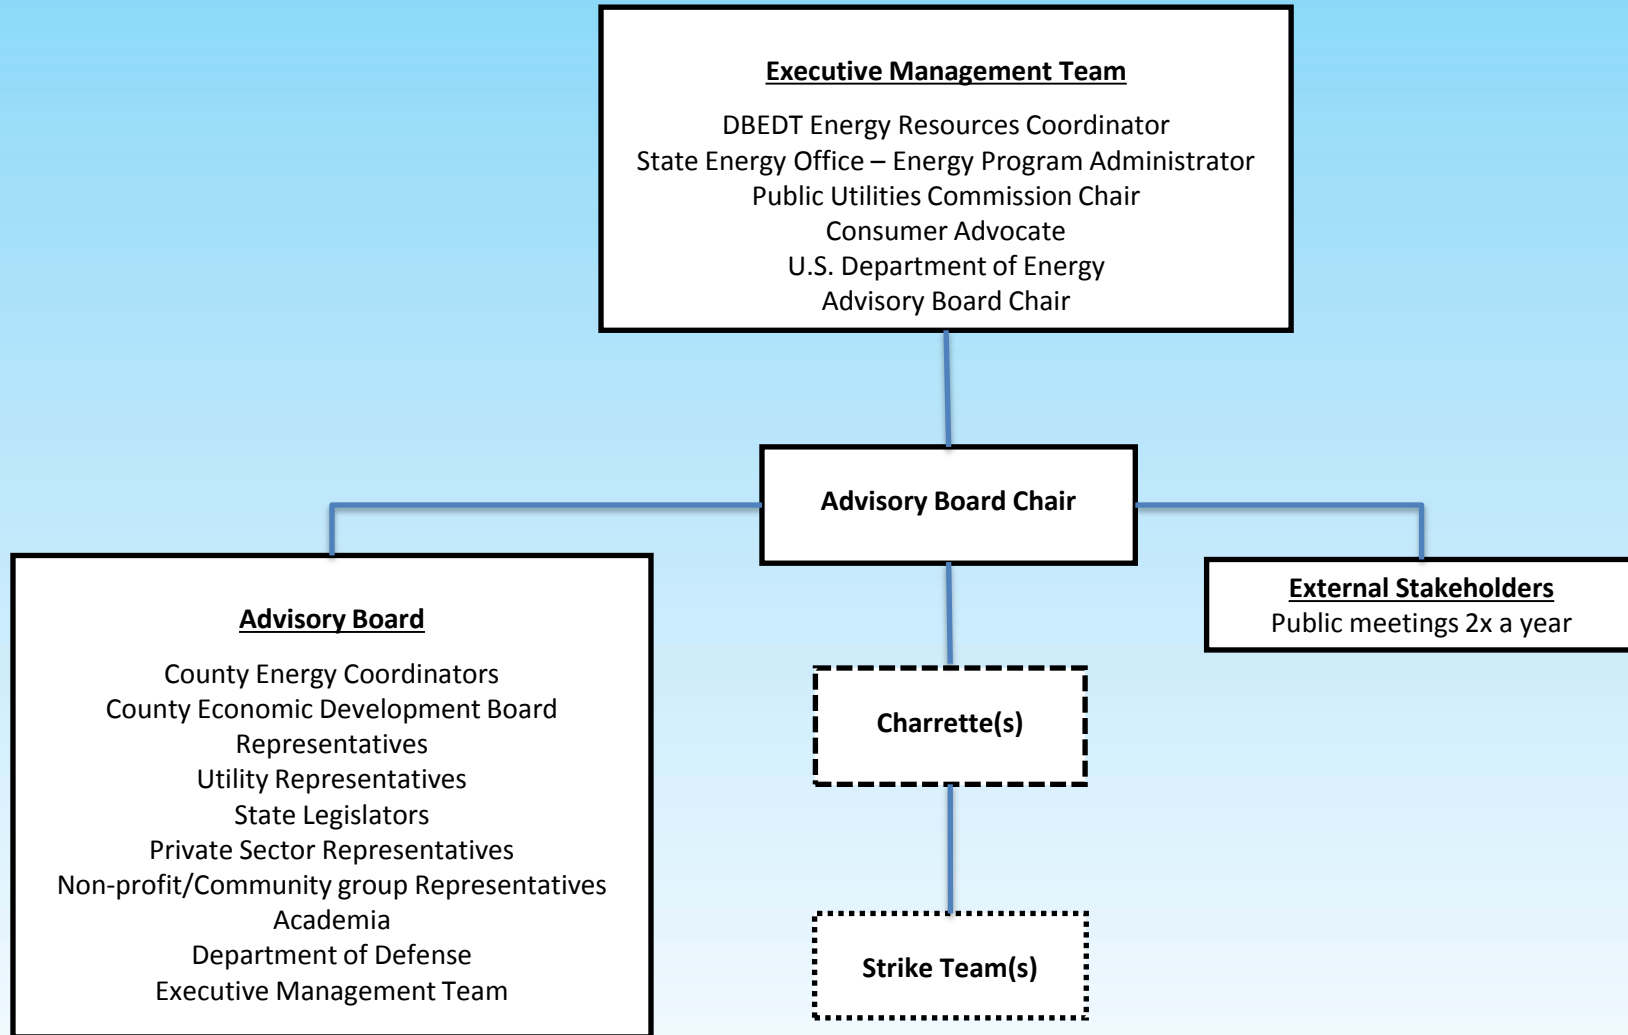

Enter code: 94YX

The screenshot shows the LiveSift website homepage. At the top, there is a navigation bar with links for "LiveSift", "how it works", "use cases", "pricing", and "login". Below this is a large orange banner with the "livesift" logo and the text "Live Participant Engagement". To the right of the banner is a search bar with a "Go!" button. A large red arrow points down to the search bar. Below the banner, there are three main content areas: a smartphone displaying a "Sift Team Meeting" interface, a section titled "Rank ideas for ad campaign" with a list of ideas (1 competition, 2 event sponsorship, 3 local TV ad), and a "Try LiveSift for Free" button.

HCEI 2.0 Organization

A Fresh Look

HCEI 2.0 will foster stakeholder engagement to take on critical challenges & opportunities to make a major, lasting difference in our clean energy future

✓ **Analysis**

✓ **Action Plans**

✓ **Necessary Policy Drivers and Incentives**

✓ **Funding/Investment Opportunities**

Charrette Concept

- Stakeholder focus on short term solutions.
- Based on the unique needs of the subject matter.
- Outcome oriented.
- Bring the power of HCEI stakeholders
- Anyone who can bring value to the charrette can participate

High Impact Focus

Initial charrette topics-

1. Transportation

2. Barriers to Energy

Efficiency

3. Grid Modernization

Transportation

- The purpose is to develop an updated transportation plan that results in significant reductions in petroleum based fuels in the transportation sector.
- The International Council on Clean Transportation will facilitate.

Barriers to Energy Efficiency

- The Barriers to Energy Efficiency charrette will examine the challenges being faced to increasing significant efficiency measures. Jeff Mikulina and Yvette Maskrey will co-chair this endeavor.
- **STATUS:** The scope and overall project timeline is still being developed.

Grid Modernization

- Addressing business models and technologies to remake our grid networks.
- Currently: Mike Champley, PUC and Professor Jae-Hyup Lee of Seoul National University will be co-chairs.
- **STATUS:** Scope and timeline are still in development.

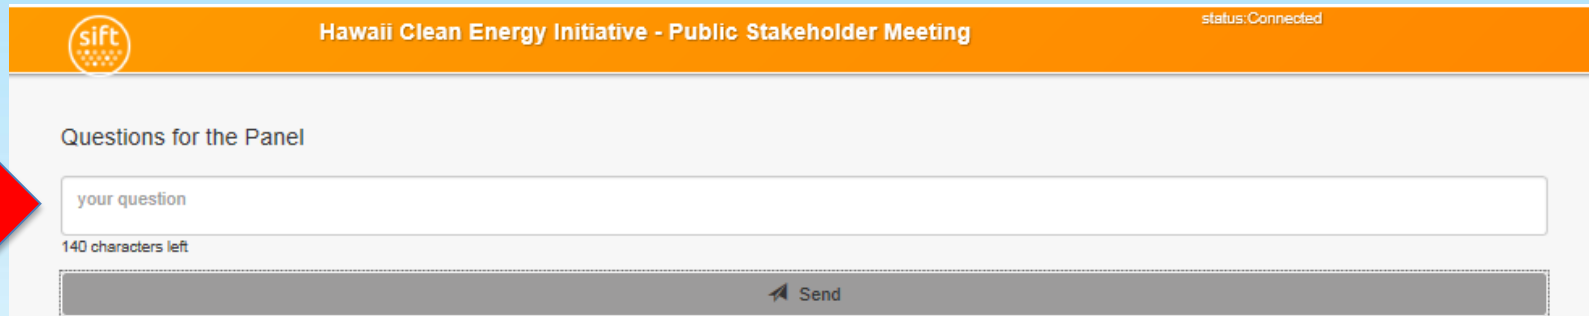

Q&A
